

# Ryan Monahan

## PROFESSIONAL EXPERIENCE

### Blockchain Developer

Traders Anonymous by WebTrend | Orlando, FL | February 2023-August 2023

- Developed and deployed multiple websites for the sale of non-fungible tokens on the Solana blockchain.
- Utilized Next.js framework paired with JavaScript SDK provided by Metaplex to create interactive web pages with blockchain connection.
- Connected to Solana API using JavaScript for interactive transaction GUI.
- Created secure transaction only allowing specific users to log in and purchase a NFT.
- Websites made responsive with TailwindCSS.
- Deployed with Vercel.

### Blockchain Developer

Too Aware | Orlando, FL | Oct 2021 – Feb 2022

- Designed and deployed website for the sale of non-fungible tokens in the form of generative profile pictures.
- Distributed NFTs over the Solana blockchain in exchange for SOL cryptocurrency.
- Utilized HTML and CSS with the Bootstrap framework to create website layout.
- Implemented JavaScript SDK with Solana API to handle login and transactions on the back end. Deployed with Netlify.
- Collaborated with influencers and other successful NFT projects to grow and manage a community across multiple social networks.

### Shift Lead

Twistee Treat | Orlando, FL | May 2022-July 2023

- Assigned duties to employees and assisted them when necessary.
- Ensured quality and consistency of product with great customer service.
- Used Revel POS system to handle customer transactions.
- Reliably closed store at night and prepared store for opening.
- Managed and counted safe/registers, keeping track of labour and revenue.
